

FACULTY OF HUMANITIES

Faculty Programmes

Through the subjects it offers, the Faculty of Humanities examines the important developments in democratic society and all the forms of expression; in the process it provides impetus and advice for the political, social, educational and industrial institutions of the region. Distinctive features of the FHW are its diversity and multiplicity of perspectives. It uses the range of humanities subjects to support the learning capability of complex systems and people. Through their disciplinary identity, in terms of research and teaching, these subjects have established links to the profile priorities of Otto-von-Guericke-University. The Faculty offers Bachelor's and Master's degree programmes with an educational, social and cultural orientation as well as training for teachers in vocational and general schools.
